

PRODUCT SPECIALIST for CENTRAL EUROPE

Come face the future challenges by joining Timac Agro, part of Groupe Roullier, and our team in Central Europe. As a specialist in Plant, Animal Nutrition and Food Industry, we cultivate our success throughout the world, thanks to our International Innovation Center in France and our 89 production units.

We are looking for someone with a clear passion for the agriculture industry, an individual with a demonstrable ability to develop new business opportunities through our products and technologies by supporting the teams in four countries.

We all share the same state of mind: to advance sustainable agriculture with respect for the environment. A commitment that drives us to innovate more and more to bring the most effective solutions.

In the position of the Product Specialist you will be:

- the zone product expert and support four countries to select & launch new technologies answering local farmer needs
- planning & coordinating the launch from the recommendation until the first sales
- activating & managing partnerships with selected food industries to value the quality impact of our plant & animal nutrition
- recommending & developing new services for our clients in cooperation with commercial teams in Central Europe
- supporting countries to develop local scientific partnership, to constantly improve our solutions to local plant & animal nutrition needs
- acting as an autonomous right arm reporting directly to the Central Europe VP

Required qualifications:

- passionate by agriculture & farming
- biological engineer background
- fluent in English & native in Czech OR Slovak/Croatian/Serbian language
- hard working with an entrepreneurship spirit, keen to make some extra-miles to make changes happen
- you benefit from a first experience in sales or product management of 1 year in a multinational agro-agri company or pharmaceutical company
